

MOUNTY Horse & Sport

Mounting Aid

Mounting Aid - The gentle way into the saddle!

Mounting a horse in the usual way places the animal under considerable nervous and physical strain. No wonder, because a considerable stress is placed on the horse's back as its spine is pulled to the side. In the past, repeated efforts have been made to remedy this problem, but no solution has ever proved entirely satisfactory. Now, however, MOUNTY has developed an automatic mounting aid. This is a world first - one from which both horse and rider benefit in equal measure. The Mounting Aid relieves the strain on the horse's back, prevents the saddle from being pulled askew, and spares the animal's nerves. It also makes mounting much easier for the rider - and it folds away automatically after it has been used. Professional riders more or less always use a mounting aid, for it is quite simply a part of good horsemanship.

Folds away automatically

The first mounting aid which is only there when it is needed. After using it the mounting aid will fold away gently and quietly. This does not only relieve the horses' backs but also their nerves. And the best thing - nothing stands in the way anymore.

Can also be integrated into the Columbus Safety Wall kick wall made of high-quality vinyl!

Comfortable mounting

The spacious folding step (100 cm x 40 cm) enables easy and especially comfortable mounting - ideal even with sensitive horses. The height of the board is freely adjustable.

Proven safety

The solid steel frame and the reviewed structure ensure a high safety for horse and rider.

MounTy Horse & Sport

Mounting Aid

Can be installed anywhere

The Mounting Aid can be fitted flush with any kick board, and leaves no sharp edges. However, it can be fixed to the floor of the stable and its height adjusted freely to your requirements. Either way, the generously dimensioned folding board enables you to mount the horse from the ideal starting position.

The advantages for horse and rider

- Relieves the strain on the horse's back
- Prevents saddles from being pulled askew
- Folds away gently and silently
- Ideal for sensitive horses
- Generously sized step-up board facilitates mounting
- Height of board freely adjustable
- Easy to install and use
- Fitted flush with any kick board and can also be fastened to floors
- No wearing parts, no maintenance, no power requirement
- Tested and recommended by the German Equestrian Federation (FN)

Even professional rider Ingrid Klimke is convinced by the mounting aid by MounTy!
