

RANCH FENCE

Dressage Arenas

Handy and chic

The dressage arena fences by COLUMBUS are characterized by the classical design, which is representative for every event. Our fences are low in maintenance and very durable due to the high-quality vinyl which also gives your dressage arena a stylish charisma.

Permanent or mobile assembly

COLUMBUS offers three different types of dressage arena fences: mobile • permanent with one rail • permanent with two rails

Compact storage

The COLUMBUS mobile dressage arena cones are stackable and thus can be stored compactly. Due to the light weight of the vinyl even the permanent arenas are easily assembled and disassembled. No tools are necessary for the assembly. Due to the crosspieces within the rails they are very solid and sagging is almost impossible. The rails have a length of 2,5m when permanently assembled and 4m when delivered with the mobile system. Those dimensions allow you to fence in your dressage arenas with competition dimensions exactly. The rails are just slid through the posts or cones and ready is your beautiful dressage arena.

Maintenance-friendly

Due to the smooth surface of posts, cones and rails you can easily wash off all the dirt and dust with warm water and soap or just hose it off. The material cannot rot away, the paint cannot chip off and you don't have to paint your arena fences ever again.

RANCH FENCE

Dressage Arenas

Mobile dressage arena fences with cones and bars

This type of dressage arenas you will find at almost every competition. These little fences exist of cones which are placed on the ground and 4m long rails which are only slid through the cones. Due to the hollow cones the arena can be stacked and thus easily stored away.

More and more frequently we can see the COLUMBUS dressage arenas at national and even international dressage events. The high-end finishing and charisma as well as the design provide you with a representative dressage arena fence. COLUMBUS is completely convinced by the quality of this material, that we can give 10 years warranty on colourfastness and fatiguing of the material.

Permanent dressage arena fences

The permanent dressage arena fences are an absolute eye-catcher and can be assembled with one or two rails. When only one rail is used the total height of the fence is approx. 35-40cm and if two rails are used the total height is approx. 65-70cm. The posts are embedded into holes in the ground and stabilized with concrete or gravel. This way a solid assembly is achieved which endures the changes of the soil and the weather.
