

MeRCuRR

Horse Solarium

The **MeRCuRR** solarium is manufactured from robust, shock-proof and heat-resistant plastic.

A special advantage of this horse solarium is that it is very compact so that it can be installed practically anywhere.

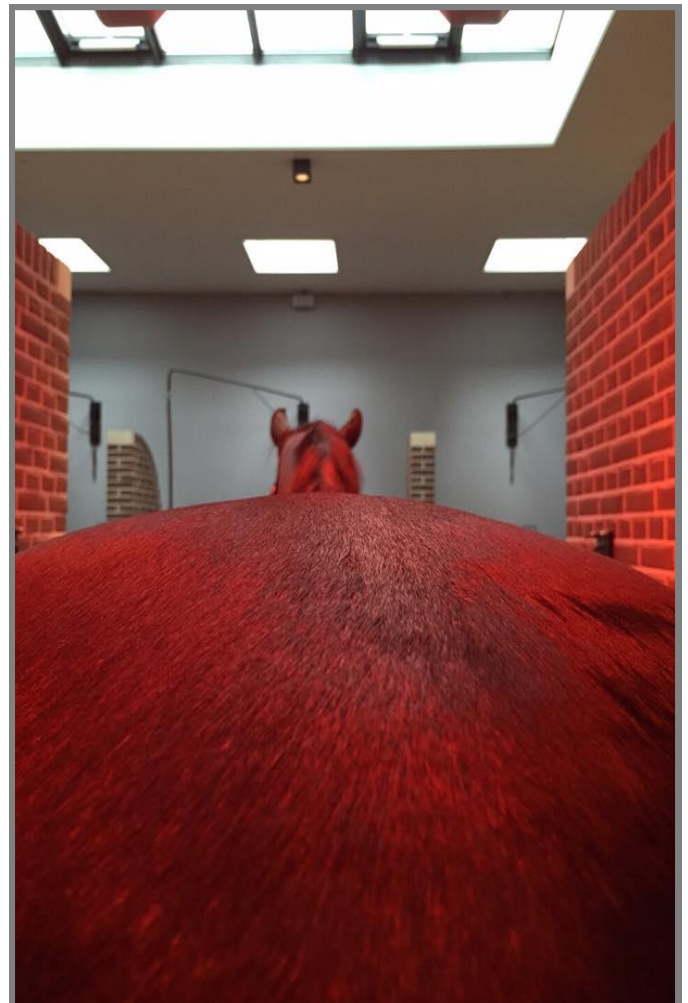

The shape of the **MeRCuRR** solariums is based on a horse's top-line and follows the contours of your horse perfectly thus giving the animal sufficient range of movement.

Also available as "Thera" Version with colour therapy!

A horse solarium is an important factor in keeping your horse healthy and enhancing its performance. Regular use generates a marked improvement in performance and fertility.

Just as regular sleep is necessary for the recuperation of strength, regular exposure to sun is essential for stimulating blood circulation, for improving the blood-cell count and for activating metabolic processes. Our solariums keep your horse healthy and robust.

However, especially helpful are horse solariums in order to relax muscles and to stop sweaty horses from getting ill during the cold and wet season.

Product Details Horse Solarium MeRCuRR

Technical Specifications

IR lamp 150W:	22 pcs
Total IR capacity:	3300 W
Fan capacity:	4 x 90 m³/h
Automatic engagement of fans at 30°C:	✓

Power requirements

Connection voltage:	1PH + N + PE 230 V 50 Hz
Circuit breaker:	16 A
Total power consumption:	3500 W

Test marking

Quality seal:	CE
IP-value:	IP44

Materials and measurements

Body:	heat-resistant plastic
Colour top:	RAL6009 – dark green
Colour beneath:	RAL9001 – crème white
Lamp fitting:	aluminium / porcelain
Suspension:	steel
Measurements LxWxH:	188 x 119 x 52 cm
Weight:	30 kg

Equipment and extras:

Suspension set	✓
Cable and plug	✓
LED lights	0
Control box o. coin device	0
Electronic or manual Lift	0

inclusive ✓ *optional* 0
