

SHOW JUMPING

Obstacles + Accessories

Practical, low maintenance and durable

Our show jumping obstacles and accessories are very durable and low on maintenance due to the high-quality polymer they are manufactured from. The obstacle poles and stands don't need any painting, because the plastic is coloured through and through and none of the paint can chip off as it would happen with wooden obstacles.

Your safety is very important to us!

Our jumping poles have a wooden core, which not only prevents that the plastic kinks or breaks if a horse steps on it, but makes the poles heavier. A hollow plastic pole would be too light and could easily get tangled between a horse's legs, thus significantly increasing the chance of a fall and injuries.

Our product range

- Obstacle stand „Standard“
- Obstacle stand „Featherlight“
- Wing 50cm wide
- Wing 70cm wide
- Wing „Featherlight“
- Poles 3m or 3,5m

- Cavaletti „Birkhof“
- Cups 20mm and 25mm deep
- Safety cups 20mm deep
- Sponsor or advertisement obstacles
- Waters ditch
- Show jumping accessories

SHOW JUMPING

Obstacles + Accessories

Cavalettis

COLUMBUS offers individual cavaletti blocks or complete cavaletti obstacles.

Together with the equestrian centre Birkhof we have designed the eponymous Cavaletti "Birkhof". The rounded off edges ensure that especially during lunging the rope cannot get caught on the sides of the obstacle thus making it safer for horse and human.

Accessories

Sponsor or advertisement obstacles

The COLUMBUS **Flexpro** sponsor or advertisement obstacles consist of the frame of our 70cm wings and a PVC tarp that can be printed on. The great thing about this system is, that you can change the advertisement quick and easy which gives you some more options with your course designs.

**We are looking forward to your
show jumping course!**
